A product from the sun, wind & water

Our dazzling snow white sea salt originates in the Mediterranean Sea, where crystal clear waters ebb and flow through an environmentally preserved coastal region. Here, the sultry sunshine and gentle winds evaporate the sea water, leaving behind premium Natural Tides Sea Salt. Traditionally harvested for centuries, the salt is unrefined and unbleached.

Think Global! Fair for Life

Natural Tides pioneers introduction of a socially and ecologically responsible Fair Trade certified sea salt. We are happy to be among the first companies to be part of a growing trend globally to certify fair trade producers regardless of their locality but rather on the basis of the merits of their social, ecological and fair price practices. Natural Tides Fine and Coarse Sea Salt producer is being paid a premium price for their sea salt so that premium savings can be set aside for the benefit of the employees and the community which they live in, thus enhancing the quality of life, the care and the quality of the products traded worldwide. Join in our globally responsible community by simply purchasing and supporting this product. You will love its quality all around. That is a promise! Enjoy!
